DETAILED ACTION

Double Patenting

1. Claims 1-10 and 15-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-22 of copending Application No. 10/006,514, published as 2002/115759. Although the conflicting claims are not identical, they are not patentably distinct from each other because all ingredients and concentrations claimed in the instant application are claimed in said copending application too.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

2. Claims 1-10 and 15-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of copending Application No. 10/168,422, published as 2003/0083419. Although the conflicting claims are not identical, they are not patentably distinct from each other because all ingredients and concentrations claimed in the instant application are claimed in said copending application too.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

3. Claims 1-10 and 15-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 of copending Application No. 10/220,591 published as 2003/0092805. Although the conflicting claims are not identical, they are not patentably distinct from each other

because all ingredients and concentrations claimed in the instant application are claimed in said copending application too.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

4. All other rejections are withdrawn by the examiner due to applicants' response.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
